Highlights

We understand that your customers have different insurance needs, and that's why we offer three levels of solid protection.

Every policy protects your customers should they cause an accident that injures another person, or damages someone else's property.

We provide 30 days of temporary coverage for newly purchased snowmobiles, giving your customer plenty of time to officially add the unit to the policy.

This optional coverage coordinates with your customer's health insurance to help cover deductibles, co-payments and other medical expenses that result from a snowmobiling incident.

We automatically adjust your customer's protection to meet any state minimum requirements – even if policy limits are normally lower.

If your customer wants to take a ride beyond our northern border, he's still covered.

There are plenty of ways to save, and the discounts are cumulative. It can make it easier for you to sell our policy.

* This program is not available in all states.

Coverages, options or discounts may not be available on all policies or in all states.
