- Loss-free renewals
- Homeowner
- And more!

### Highlights

Allows your customer to purchase the level of protection that best suits his needs.

It doesn't matter if the bike was converted to or originally manufactured as a trike, your customer can still get this hard-to-find protection.

In the event of a total loss, this coverage replaces your customer's bike with another of like kind and quality. This coverage also applies to accessories.

Your customer automatically receives coverage for permanently attached accessories, both manufacturer and non-manufacturer. Higher limits of coverage are also available.

On street legal units when other than collision and collision coverage are purchased, your customer will be provided with a toll-free number for assistance, \$300 Trip Interruption Coverage (which includes meals, lodging and transportation when a coverage loss occurs more than 100 miles from the principal residence), and \$300 Towing and Emergency Road Service. The Towing and Emergency Road Service does allow for service needs in National Parks.

If your customer's approved clothing, helmet or other safety items are damaged during a covered loss, our policy helps pay to replace them. Helmets aren't subject to deductible.

Discounts are cumulative, which result in lower premiums for your customers, and easier to sell policies for you. Our discount options vary by state, so ask for details.

\* Available on select cycles. If the customer chooses not to replace the unit, the claim settlement will be at Actual Cash Value.

Coverages, options or discounts may not be available on all policies or in all states.
